Schotten Totten — player aid

Win by claiming 5 Stones anywhere, or 3 adjacent Stones, out of the 9 Border Stones.

YOUR TURN

1. Play one card in front of a Stone, on your side (three cards at most a side).
2. Claim any Stone where you can prove your formation wins (claiming is optional).
3. Draw back up to 6 cards, if the deck has any left.

FORMATIONS, STRONGEST FIRST

Colour run		three in a row, one colour
Three of a kind		one value, three colours
Colour		one colour, any values
Run		three in a row, mixed colours
Sum		anything else: the total counts

CLAIMING

Your own side must be full. Both sides full: the stronger formation wins. Their side not full: claim only if no card not yet played, including the ones in your hand, could beat you.

TIES

Same formation: the higher total wins. Same total: whoever completed their side first.

TACTICS VARIANT

Add the 10 tactic cards and hold 7 cards; never play more than one tactic card ahead of your opponent.
